CALIFORNIA SEED AND BULB GROWERS FOR 50 YEARS

Our 49th Greetings to our Customers and Friends

D. G. Fraser
Seed Grower and
Originator

DURING the two score and eight years of our existence, great strides have been made in gardening in America. We have sponsored flower shows in almost every state in the Union, and believe America is more flower conscious today than ever before.

A background of 48 years spent in thoughtful growing of flower seeds and bulbs has enabled us to select the best varieties grown, as California produces more flower seed than any other state in the Union. Therefore, more than a generation of service is at your command.

To our old customers we, the second generation, wish to thank you for past patronage. Our new low prices for 1936 have been made possible through the general conditions of the country. At the same time we have maintained the same high quality of Fraser's California Sun-Ripened seeds and bulbs, "America's best".

Very sincerely yours,

FRASER'S CALIFORNIA RANUNCULUS SEEDS

2494 GIANT FRENCH MIXED. Flowers 130 days from seed. Plant July, August, September. This very popular flower may be grown readily from seed though home gardeners have usually grown them from bulbs. Seed should be sown in good sandy loam, covered lightly with sand kept moist. May be planted in early fall and late spring and will flower the first season from seed. Our mixture is a

very fine semi-double strain and contains a splendid range of colors. **Pkt. 25c.**

ANEMONE SEEDS

Flowers 140 days from seed. Plant seed in July, August, September

2761 GIANT FRENCH SINGLE MIXED. This lovely flower may be grown from seeds as well as bulbs. Our seed has been saved from an extra fine strain and contains a choice mixture of colors. **Pkt. 25c.**

If you want to be "Knee Deep" in flowers in the Spring, Plant in the Fall

Much can be learned by observing Mother Nature in her care and method of perpetuating members of the Flower Kingdom. Self-seeding of many flowers in our own gardens is a good example of how Nature takes care of the planting problem. Seed planting by the bursting of the ripened seed pod during the mid-summer and fall, remains dormant until climatic conditions are right for germination. And, did you ever notice that such seed is never planted deep?

More failures are due to deep planting than to shallow planting. Two to three times the thickness of the seed is enough and that means that in a big majority of plantings that the seed need only be raked in or lightly covered, then firmed down. The same rule holds good when planting seed in flats or seed pans, only you do not wait for Nature to supply the moisture, heat, light and air necessary for germination and growth—you must do it. And don't forget, if you plant in the open ground and it doesn't rain you **MUST** supply the needed moisture. Seed beds allowed to dry out when seed has just started to germinate might just as well be abandoned for all the success you will have.

Long before the gardener is able to get in and work the soil, seed planted during autumn has made a strong, vigorous root growth by spring. Such plants are always stronger, more hardy and of course produce earlier flowers than from spring sowing.

By sowing in the autumn you can have many of your favorite perennials flowering next year, besides many annuals for early spring flowering. In California and mild Southern States many autumn planted annuals will give an abundance of winter flowers.

California and Southern States

All of the seeds, bulbs and tuberous plants listed in this catalog are suitable for Mid-Summer and Fall planting in California and Southern States having mild climates.

Lower Prices—but the same high quality, "Sun Ripened" flower seeds. There is no reduction in weight of packets, you will still receive liberally filled packets. Price will always be secondary to quality, because the clientele we serve demand the best. Prices published in this catalog supersede all previous quotations.

FRASER'S FREESIA HYBRIDA GROWING FOR SEED—No. 1215

Shades of rose, pink, blue, purple, violet, yellow, orange and brown, delicately veined and spotted. Flowers 150 days from seed. Plant August, September, October. **Pkt. 25c.**

No. 1339—EARLY SPENCER SWEET PEA
Fraser's Rainbow Beauty. Mixture 1/2 oz. 25c; 1 oz. 50c

Early Spencers NOVELTIES OF 1935 and 1936

- 1355—**American Flag**. Beautiful red and white. Oldest and the best with streaming white wings. Pkt. 25c.
1356—**Shirley Temple**. New color in sweet pea, a beautiful Silver Rose, large flowered, long stem, outstanding. Pkt. 25c.
1357—**Annie Laurie**. The best Rose Pink sweet-pea, introduced to date. Pkt. 25c.
1358—**Geranium Pink**. A decided new color, the same as the popular pink geranium of the old fashioned garden. Pkt. 25c.
1346—**Exposition Pink**. One of the finest pinks of recent introduction being especially radiant under artificial light. Pkt. 25c.
1348—**Susanna**. A flashing carmine red with same color tone in both standard and wings. Pkt. 25c.
1347—**Eleanor Blue**. A pleasing blue of silvery sheen. A good clear color that will prove very popular. Pkt. 25c.
1349—**Lavanda**. A new lavender of unusual quality. Color is uniform in standards and wings and the same in partly opened buds and open blossoms. Pkt. 25c.

Any of above:

FRASER'S FAMOUS BEAUTY BLENDS

Early Spencer Sweet Peas in Color Blends

- a longer blooming season;
- a variety of individual colors in shades

The largest and finest of all types have been used in making these shades; each being selected for a different blooming period. For instance, in "Pink and Salmon Shades" we have selected several pinks, each with just a little different blooming period.

Besides creating a longer succession of bloom we have blended a collection of colors in shades, suitable for carrying out a well planned, harmonious color scheme in the sweet pea garden.

SWEET PEAS

New Low Prices—Same High Quality

EARLY OR WINTER FLOWERING SPENCERS

Plant during Mid-Summer and Fall for Winter and Spring Flowers

Because of the myriad of colors and varieties in Sweet Peas we offer each season what we consider the 12 best varieties considering color, size of flower and vigorous plant habit. In addition we offer the outstanding novelties for the sweet pea fans who want the best of the new introductions.

Complete cultural information is given on each packet. Seed requires from 14 to 20 days in which to germinate.

THE TWELVE BEST

Early Rainbow Colors in Spencer Sweet Peas

1342—**Clear Lavender—HARMONY**. A beautiful large frilled lavender of delicate light shade.

1311—**Deep Lavender — MICHIGAN**. Giant flower of good deep color and substance.

1308—**Lilac—CATTLEYA**. A bewitching shade of rose-lilac like the Orchid Cattleya. Large beautifully waved flowers. A very attractive color under artificial light, long stems and vigorous plant.

1315—**Clear Pink—IMPERIAL**. A large clear pink of soft shade.

1352—**GLITTERS**. A magnificent flower with a remarkable glowing color. The standard is fiery orange-scarlet.

1344—**Rose-Pink—GIANT ROSE**. A very rich rose-pink, large flowered and beautifully waved.

1312—**Blue—BLUE BONNET**. A fine clear blue of unusual purity and lasting qualities.

1318—**Crimson—AVIATOR**. A glowing, warm-crimson, the best of this shade.

1341—**Salmon-Cerise—PRIDE**. A bright, live color effect under artificial light.

1345—**Orange Scarlet — VULCAN**. We offer this color in place of the so-called oranges. It is one of the best orange shades, and deep enough so it will not sunburn.

1322—**White — WHITE HARMONY**. A pure white: free flowering. Awarded two silver medals and three certificates.

1323—**Bicolor—COLUMBIA**. Salmon-rose with white wings. A favorite among growers.

Prices of all above separate colors. Pkt. 15c, contains 50 to 60 seeds; 1 oz. 50c; 4 ozs. 1.60.

One ounce will sow a double row about 20 feet long.

Your choice of any 8 packets of above
Standard Group, (give numbers). Value 1.20..... **75c**

LATHYRUS

Perennial Sweet Pea

2894—**Fraser's Select Mixture**. Hardy perennial climber with pea-like foliage and flowers borne in clusters of 8 to 10. Colors are red, pink and white. Vine may be trained as climber on supports and is also very good for trailing over rocks and banks. Dies back as soon as frost comes in northern states. Pkt. 15c.

1325—**Old Fashioned Sweet Peas—Grandiflora**. Many Colors Mixed. This is the old-fashioned, plain petaled, highly perfumed sweet pea. A very profuse bloomer, producing bicolor flowers. Plant some; they certainly have fragrance. Full oz. Pkt. 15c.

1326—**Cupid Sweet Pea**. Dwarf plants, growing only about 12 inches and covered with a riot of colorful flowers. Excellent for bedding. Pkt. 15c.

Six Superb Early Flowering SPENCER SWEET PEAS

The best of their respective types of 1933. Incomparable in size, color, form and substance. A revelation in color and fragrance. Excellent for forcing under glass for winter and early spring in cold sections and particularly suited for outside planting in Southern States during August, September, October and November for winter and early spring bloom.

Separate Colors, 1/2 oz. 35c; 1 oz. 60c

- 1337—**American Beauty, Rose**.
1336—**Orange Supreme, Orange**.
1330—**Phyllis Fraser, Lavender**.
1333—**Gardenia White, White**.
1338—**Miss Los Angeles, Salmon**.

1332—**Christmas Red**.

Packet 20c each

COLLECTION OFFER No. 1340

All Six Packets.....\$1.00
(Value \$1.20)

SPENCER FAMOUS EARLY SWEET PEAS

1339—**Fraser's California Rainbow Beauty Mixture**. This is a very special Early Spencer mixture including splendid shades, such as pink and salmon lavender and orchid, scarlet and crimson, light and dark blues, rose, white and artistic two-tone shades. In fact, all the colors of the rainbow. 1/2 oz. 25c; 1 oz. 50c.

NITRAGIN

Recommended for inoculated sweet pea seed. Enables the plant to draw nitrogen from the air and stimulates strong and vigorous plant growth. Garden size Nitragin will inoculate from 1 oz. to 8 lbs. of sweet pea seed. 25c postpaid.

ANTIRRHINUM . . . Snapdragon

Plant seed in the Fall, during August, September and October for best results. Seed germinates from 7 to 21 days, according to varieties and types, so be patient. They are easy to grow, very colorful, fine for cut flowers, and for borders and beds in the garden. They are truly perennials, but in the Southern States they are treated as an annual, and will produce flowers in 90 to 120 days. The seed is fine, and should be covered lightly but firmed in well in the box. In the open they can be sown in rows and firmed well. Be sure and keep the plants on the grow, if you are planting in boxes, sprinkle every 10 days with Blood Meal and continue to feed after they are planted out where they are to bloom, and you will be almost assured of healthy, thrifty, hardy-blooming plants. Do not pinch back but keep them well supplied with this Blood as a plant food, until they have finished their blooming period.

See back cover for Rust Proof Snaps

TALL GROWING GIANTS OF CALIFORNIA SNAPDRAGONS (Maximum)

A comparatively new strain, superior to anything yet introduced and a revelation to those who have been growing only the ordinary garden snapdragons. Immense flowers of beautiful texture closely set on long graceful stems growing to four feet high.

670—Los Angeles. A beautiful salmon-rose—identical in color to the famous Los Angeles Rose. It combines a beautiful shade of salmon with Begonia Rose. It is sure to create a sensation in your garden. It is a vigorous grower.

671—Orchid Cattleya. New. Very pretty, rosy-lilac.

672—Golden Oriole. Flashing light orange, underlip marked with large yellow spot.

673—Ruby. A pleasing deep ruby red.

682—Apple Blossom. Soft apple blossom pink, yellow lip and white marking.

683—Canary Bird. Bright canary yellow. Fine color for mixed bouquets.

684—Copper King. Bronzy scarlet with rich velvety sheen.

685—Old Gold. Pure golden yellow. An effective, pleasing color. Pkt. 25c; 1/8 oz. 75c.

CALIFORNIA WILDFLOWERS

A FRASER SPECIALTY

They bring romance, novelty and beauty to the garden and require a minimum of water and care. The best time to sow seed is in the Fall or during the rainy season. Sowings made after the rainy season is past will have a shorter blooming period, slower germination and will require watering to succeed. In California and Southern states plant by the end of October.

Nature provided this seed with a tough husk to preserve the specie during period of drought. It requires rain and moist, warm ground, to germinate this seed, all of which nature provides in due season. Seed planted too late in the Spring will often carry over to the following Spring before it will germinate. Nature plants this seed almost on the surface of the ground, then provides continuous moisture near the surface during the period of germination, after which the plant requires very little water.

NEW CALIFORNIA POPPIES IN SUNSET SHADES

Eschscholtzia

The original golden cup that is known as the true California Poppy, has furnished the base for the remarkable color range of the present poppy. The size has been greatly increased, and the petals of the flowers have been charmingly frilled and ruffled. As a cut flower they are far more satisfactory than most people realize, the trick being to cut the flowers in the early morning before the buds open.

CALIFORNIA POPPIES

- 2061—Scarlet Shades. Includes a new deep scarlet of the tulip-flowered type.
- 2062—Orange Shade. Beautiful fluted and large types in rich orange.
- 2063—Crimson Shades. Rich crimsons and fluted types.
- 2064—Yellow Shades. Golden yellow shades and new fringed types.
- 2065—Pink Shades. Bright to delicate shades of pink.
- 2066—Carmine Shades. Deep carmine shades and lovely frilled types.
- 2067—New Bronze Shades. Two toned frilled and fluted types of orange crimson outside and inside of petals golden.
- 2069—Poppyland Sunset Mixture. A mixture of all the above shades.

Any of above.

Pkt. 15c; 1/4 oz. 40c; 1/2 oz. 70c; 1 oz. \$1.25

California Native Wildflowers Collection No. 2010

This seed is valuable for brightening open spaces in vacant lots, in parkways and in corners of the garden. Ours is a souvenir mixture of the most beautiful types of true native California flowers. 2010—For all places. A mixture of 20 distinct varieties.

Packet..... **25c**
Oz. 50c; 1/4 lb. \$1.50; 1 lb. \$5.00.

LUPINE

2051—California Mountain Blue. (Lupines Nanus) Annual. Pkt. 15c; 1 oz. 40c.

CALIFORNIA PENTSTEMON

2035—Rare *Pentstemon spectabilis*. "Blue Pentstemon." Perennial, 4 to 5 feet high. Flowers in long spikes, and the richest combination of blue and royal purple. Pkt. 25c; 1/2 oz. 40c.

QUEEN ANN'S THIMBLE

2028—*Gilia Capitata*. This annual grows 1 1/2 to 2 1/2 feet high, of slender branching habit. Flowers are of lavender blue, borne on long stem and somewhat like *Scabiosa* in form. Pkt. 15c; 1/2 oz. 40c.

CALIFORNIA BLUE BELL

2037—*Phacelia campanularia*. Grows 1 to 1 1/2 feet high. Intensely vivid, dark lobelia blue flowers borne profusely in clusters.

Pkt. 15c; 1/4 oz. 35c; 1/2 oz. 60c

CALIFORNIA COLUMBINE

2024—*Aquilegia Truncata* (Red Columbine). Perennial growing 2 to 3 feet. The gay yellow-tipped, scarlet flowers hang gracefully from slender bending stems.

Pkt. 25c; 1/8 oz. \$1.00; 1/4 oz. \$1.85

CANTERBURY BELL

2039—*Phacelia whitlavia*. Annual grows 1 to 1 1/2 feet; covered with bell-shaped deep purplish-blue flowers with creamy throat. Blooms continuously for many weeks, will thrive in partly shaded, moist places.

Pkt. 15c; 1/4 oz. 35c; 1/2 oz. 60c

BLAZING STAR

2025—*Bartonia Aurea*—Blazing Star. A very desirable golden yellow flower entirely hardy in all parts of the country. Flowers average about 3 inches across single with bristling, long, bright yellow. Likes full sun but not much water.

Pkt. 15c; 1/4 oz. 30c; 1/2 oz. 50c

SAND VERBENA

2021—*Abronia Umbellata*. Thrives in sandy soil and is at its best near the seashore. Its gay, rosy-pink flowers will form a beautiful carpet over sandy patches where other flowers and ground covers refuse to grow.

Pkt. 15c; 1/2 oz. 50c

CACTUS SEED

2081—Death Valley Cactus. A fine assortment of California desert types suitable for growing in bowls or developing for your cactus garden. Pkt. 25c.

CALIFORNIA TIDY TIPS

2036—*Layia Elegans*—Tidy Tips. A very pretty, dainty little annual growing 1 to 1 1/2 feet high. Very satisfactory in the garden. Creamy white, making a contrasting and pleasing relief to solid yellows. Dandy cut flower. Pkt. 15c; 1/4 oz. 35c; 1/2 oz. 60c.

FRASER'S CALIFORNIA WILDFLOWER FORMULAS

Especially adapted to beds and areas that receive little care, or to some unused corner that would be brighter with these flashing colors. They will do well in shrubbery, borders, and along wooded walks, or in sections of the garden set aside for wild or natural plantings; also very effective for the rock garden.

They contain Wild Snapdragons, several Lupines, Baby Blue Eyes, Wild Coreopsis, Indian and Pink Paint Brush, Evening Primrose, Tidy Tips, Wild Heliotrope, California Poppies, Gillias, Godetias, Blue Bells, Buttercups, Blazing Stars and many others.

2005—Shady Blend. Six select varieties for partly shaded areas.

2006—Yellow-Gold Shades. A beautiful blend of orange, yellow and cream.

2007—Blue and Purple Shades. A blend of blue, purple and lavender colors.

2009—General Mixture. A mixture of choice varieties for all-around planting. Any of above.

Pkt. 15c; 1/4 oz. 35c; 1/2 oz. 60c; 1 oz. \$1.00

CALIFORNIA POPPY. A brilliant, colorful bedder, Hardy in any state. No. 2078. Pkt. 10c.

California Wildflower Garden

Collection No. 5011

A \$1.05 value..... **75c**

DELPHINIUM . . Hardy Perennial Larkspur

The best-loved blue garden flower is surely the hardy perennial Delphinium. In our carefully selected strain, each compact tapering spire of bloom is a dream of rare beauty. The colors are indescribably beautiful—rich and delicate, blends of breath-taking loveliness. They grow three to six feet tall, so are excellent background plants. By far the best time to start delphinium is in the fall months of August, September and up to November. Seed require 15 to 20 days to germinate. Orders from this catalog receive seed harvested during the late part of July, 1935. Maximum size flowers are not produced until the second blooming season.

Special leaflet on the culture of delphinium from seed will be supplied if requested at the time of ordering.

No. 829—FRASER'S GIANT HOLLYHOCK FLOWERED DELPHINIUM

826—Belladonna Improved. True type, blue. Pkt. 35c; 1/8 oz. 75c.

827—Bellamosum. Dark Blue. Pkt. 35c; 1/8 oz. 70c

833—Vanderbilt Hybrids. A fine tall growing strain, producing flower spikes of exceptionally large double, semi-double and single bloom in blue shades. Well known and popular with all delphinium growers. Pkt. 30c; 1/16 oz. 60c; 1/8 oz. \$1.00

Delphinium Chinense Annual

834—Blue Butterfly. Dwarf type blooming ninety days from seed. Blooms profusely from June to September; grows about 1 ft. We do not hesitate to recommend this one for it surely is a beauty, with its airy graceful butterfly-like aquamarine blue flowers.

Pkt. 15c; 1/8 oz. 40c; 1/4 oz. 70c

DIANTHUS

Hardy Garden Pinks

This group represents the very best strains of the hardy or perennial group of old-fashioned pinks. They are easy to grow and bloom freely for many weeks. All of this group is good for rock garden work.

922—Caesius (Cheddar Pink). Clear pink, with profuse blossoms. Single. Pkt. 15c; 1/8 oz. 40c; 1/4 oz. 70c.

923—Deltoides (Maiden's Blush). Bright rosy flowers. Ideal for rockery. Single. Pkt. 15c; 1/8 oz. 45c; 1/4 oz. 75c

924—Mt. Whitney Mixture. 24 rare varieties, fine for rock gardens, in a range of exquisite colors. Pkt. 25c; 1/16 oz. 85c; 1/4 oz. \$1.50

925—Fraser's Scotch Mix. Very fragrant, a wonderful range of colors, height 12 inches. Double. Pkt. 25c; 1/32 oz. \$1.60

926—Dianthus plumarius nanus. Very dwarf, double and early flowering, ideal for the rock garden and low borders. Pkt. 15c; 1/8 oz. 50c; 1/4 oz. 85c

SWEET WILLIAM

Dianthus Barbatus

937—Holborn Glory. Single flowers in many colors, with white eyes. Pkt. 15c; 1/4 oz. 30c; 1/2 oz. 50c.

944—Turkey Red. Pkt. 15c; 1/8 oz. 30c; 1/4 oz. 50c

942—Choice Double Mix. Pkt. 15c; 1/8 oz. 25c; 1/4 oz. 40c

CINERARIA

Fraser's Prize Strains

These flowers are the most gorgeously colored flowers to be had for winter blooming. They are biennials treated as annuals and are splendid for pot culture. In California or other mild sections, they are perfectly hardy for the open garden. A shady situation should be given them, the north side of the house, beneath trees, or among shrubbery. Plant in California and southern states from August to November in open ground or flats and transplant.

2391—Semi-dwarf Giant Exhibition Hybrid. Extra large flower on dwarf plants. Color shades of purple, blues and dark to light, reds, salmon and rose, white and white with richly colored edges. Spectacular for mass bedding. Pkt. 50c; 5 Pkts. \$2.00.

2392—Stellata or Star. Clusters of starlike blossoms in delicate shades. Grows two feet, fine for backgrounds.

Pkt. 25c; 5 Pkts. \$1.00

2393—Multiflora Nana. A dwarf plant, dense, compact form, covered with small flowers in a fine range of colors.

Pkt. 35c; 3 Pkts. \$1.00

2394—Fraser's Imperial Mixture. A balanced blend of the best strains of tall growing, large flowering varieties.

Pkt. 35c; 3 Pkts. \$1.00

2396—Fraser's Double Cinearia (Flora Plena.) Grows about 10 inches; medium size double and semi-double flowers in color shades of pinks, maroon, blue and purples. Pkt. 50c; 1/64 oz. \$1.00.

Hardy Garden CARNATIONS

FRASER'S BEAUTY STRAIN

(Improved Chabaud's Giants)

If planted inside very early they will bloom in 5 months from seed. Late spring and fall plantings produce vigorous plants that bloom early the following season. Sun Ripened Seeds produce plants of exceptional vigor, 1 1/2 ft. tall with upright habit and from ten to twenty stalks, producing flowers of large size and doubleness, resembling those grown by the florists in the greenhouse.

2793—Cardinal-Red

2794—Crimson

2795—Deep Rose

2796—Shell-Pink

2797—Salmon-Rose

2798—White

Pkt. 20c

1/8 oz. 75c

1/4 oz. \$1.35

2799—Fraser's California Beauty Mix. Six colors, including those listed above.

Pkt. 20c; 1/8 oz. 60c; 1/4 oz. \$1.00

CARNATION COLOR TRIO

2800—Includes one packet each of Cardinal Red, Salmon-Rose, and White. Value 60c, for..... **50c**

2802—Fraser's Penciled Beauties. Variegated variety. Pkt. 20c.

FRASER'S CATALINA STRAIN MIXTURE

(Improved Enfant de Nice Strain)

2809—Six beautiful colors harmoniously blended. Pkt. 35c; 1/32 oz. 55c; 1/16 oz. \$1.00.

MARGUERITE CARNATION

Easy to grow from seed. Very fragrant

2801—Old-Fashioned Carnation. Smaller than the present day carnation, very fragrant and a prolific bloomer. Flowers are double and semi-double of exquisite color. Pkt. 15c; 1/8 oz. 35c; 1/4 oz. 60c.

CALLIOPSIS

Hardy annuals. Profuse bloomers. Will bloom in ten weeks from seed.

The dwarf Calliopsis is a splendid thing for edging low massed plantings or rockeries. The richly marked flowers come in shades of yellow, orange and mahogany.

Dwarf Varieties

2267—Golden Wave. A glorious yellow with mahogany zone. Pkt. 15c.

2268—Yellow Wave. Clear yellow. Pkt. 15c.

Tall Varieties—3 Ft. High

2266—Marmorata. Tall variety bearing a mass of yellow flowers prettily marked with maroon. A more compact grower than other tall varieties. Splendid for background. Pkt. 15c.

2269—Hybrid Semi Plena. Mixed colors with crimson marking. Pkt. 15c.

No. 2391—GIANT EXHIBITION CINERARIA. Pkt. 50c.

Annual Flowers for

Bulb Bed Covers and Borders

Plant Seed When You
Set Out Your Bulbs

SWEET ALYSSUM

2211—White Gem. Grows 4 to 5 inches high and covered with small sparkling white flowers. Blooms continuously from early Spring through Summer.

2212—Lilac Queen. The same habit of growth as White Gem, but flowers are of a dainty lilac shade, changing to lighter shade as they are.

2213—Carpet of Snow (Alyssum procumbens). An excellent low type growing 2 to 3 inches high. The little white glistening flowers cover the plant.

Any of above varieties.

Pkt. 15c; 1/2 oz. 40c; 1 oz. 75c

BABY BLUE EYES

Nemophila

Does well in full sun, but enjoys a somewhat shaded moist situation. Lovely cup-shaped, sky-blue flowers with white eyes.

2472—Insignia Blue. Pkt. 15c; 1/2 oz. 40c.

2473—Choice Blend. Mix of blues, lilacs, purples and white. Pkt. 15c; 1/2 oz. 35c.

FRASER'S FAMOUS RAINBOW ASTERS

For Late Fall and Winter
Blooming

Very few lovers of Asters realize that this hardy strain will bloom late in the Fall, September and October, and sometimes produce blooms as late as November, December and January. Fine for cutting and bouquets.

3299—Winter-flowering Rainbow Blend. Pkt. 15c; 1/4 oz. 35c.

MINIATURE MISSION ZINNIAS

Elegans, or Cut and Come Again type. Seed planted will produce plants in 48 hours from seed, and the flowers in full bloom in 35 days.

39—Late-flowering Blend in Mixture. Pkt. 15c; 1/4 oz. 35c.

FRASER'S RAINBOW BLEND ASTERS
No. 3299. Pkt. 15c

872 EARLY FLOWERING NEW GIANT IMPERIAL LARKSPUR.
Miss Orchid. Orchid Lavender. Pkt. 25c

FRASER'S Annual Larkspur

The fact that this popular annual can be sown during the Autumn up to November is becoming more generally known and has resulted in many gardens having larkspur from early Spring until well into the Fall. Enjoy these beauties longer by planting in the Fall and again in the Spring. Seed requires 14 to 20 days in which to germinate.

EARLY FLOWERING GIANT IMPERIAL UPRIGHT DELPHINIUM TYPE

The finest Larkspur yet produced. Plants are of upright growth like the Delphinium, each of the many branches starting from the ground produces an exceptionally long and solid spike of color. Grows 3 to 4 ft.

866—Blue Spire. Deep Oxford blue. 870—Miss California. Deep pink over salmon.

867—Carmine King. Carmine-rose shade. 871—Peach Blossom. Light pink.

868—Gloria. Deep rose. 872—Miss Orchid. New orchid lavender, novelty.

869—Lilac Spire. Light lavender. Packets 25c; 1/4 oz. 60c; 1/2 oz. \$1.10; 1 oz. \$2.00

879—Imperial Mixed. A balance of all colors in the Imperial group. Pkt. 20c; 1/2 oz. 60c; 1 oz. \$1.10.

- 2625—Dwarf Double and Single Hybrids.

Pkt. 15c; 1/2 oz. 60c; 1 oz. \$1.00

Fraser's Single Giant Trophy

A large flower of unusual markings and colors; sunburst shades of creamy yellow, golden yellow and rich orange to crimson, beautifully marked and shaded in contrasting colors.

- 2652—Tall or Trailing Giant-Flowered Trophy.

- 2584—Dwarf Giant-Flowered Trophy.

Pkt. 15c; 1 oz. 25c; 4 oz. 75c

- 2602—Scarlet Gleam, 25c.

Giant Sweet Sultan

An indispensable annual for cutting or gar-

den display. Sun Ripened seed is "free flowering."

- 2312—Fraser's Brilliant Rose.

- 2313—Fraser's Deep Lavender

- 2314—Fraser's Purple.

- 2315—Fraser's White.

- 2319—Fraser's Blend.

Any of above.

Pkt. 15c; 1/4 oz. 30c; 1/2 oz. 50c

- 2316—Yellow (Suaveolens). Rich yellow, a glorious combination with the blue Bachelor Button when used in bouquets. Pkt. 15c.

Dusty Miller Centaurea

- 2340—Gymnocarpa. Planted extensively for low borders because of its silvery white foliage. Pkt. 15c.

- 2339—Candidissima (Cineraria). Silvery white foliage and golden yellow blossoms. Pkt. 20c.

CHRYSANTHEMUM (Annual)

Annual Painted Daisy

They are easily grown from seed flowering in 90 days and make a showy planting about 2 1/2 feet high covered with daisy-like flowers.

- 2349—Fraser's Painted Daisy Mixture. Single of most beautiful colors. Pkt. 15c; 1/2 oz. 40c.

CALENDULAS . . . Scotch Marigold

Calendulas will thrive in almost any soil on a minimum of care. In California or mild sections it is simplest to sow them where they are to grow. In California and mild climates they can be planted in the Fall for Winter blooming.

Seed germinates in 7 to 10 days.

- 410—Fraser's California Improved Orange. A rich golden orange. Large double flowers.

Pkt. 15c; 1/4 oz. 35c; 1/2 oz. 60c.

- 411—Fraser's California Improved Yellow. Large, lemon yellow.

Pkt. 15c; 1/4 oz. 35c; 1/2 oz. 60c.

- 414—Sensation (Campfire). Brilliant orange, large flower, dark center. Double.

Pkt. 20c; 1/4 oz. 75c; 1/2 oz. \$1.35

- 415—Ball's Gold. Golden yellow.

Pkt. 20c; 1/4 oz. 75c; 1/2 oz. \$1.35

- 416—Radio. Quilled petals distinguish this interesting new variety. Clear orange. Pkt. 20c; 1/4 oz. 75c; 1/2 oz. \$1.35.

- 417 Radio Golden Beam. A new rich, golden yellow. Counterpart of Radio.

Pkt. 25c; 1/4 oz. 85c; 1/2 oz. \$1.50

- 420—Golden Splendor Mixture. All varieties listed above including new novelties for 1934. Pkt. 15c.

THE UNUSUALLY HIGH GERMINATING QUALITIES OF FRASER'S GIANT PANSY SEED WILL BE A REVELATION TO YOU. THE FRAGRANT FLOWERS MAKE FINE BOUQUETS

FRASER'S Giant Pansies

Few gardeners realize how easily pansies may be started from seed. Since quantities of them are usually wanted, if they are to be effective, it is much cheaper than buying plants.

Pansies are perennials treated as annuals. Sow seed from July to October. The colder the winters the earlier they must be planted in order to get them started and transplanted so the plants will go into winter in a good, vigorous condition. They thrive in full sun or partial shade.

1071—Super Swiss Giants. Roggli strain. Produces unusually large flowers on long stems. A very choice selection of colors and a strain most gardeners know and rely on. Unexcelled in size and quality. Pkt. 50c; 1/16 oz. \$1.35; 1/8 oz. \$2.50; 1/4 oz. \$4.75.

1072—Fraser's Prize Giants. An extra good strain at this price. Beautifully blotched flowers of large size and heavy texture. Compact and long, strong stems, fine for cutting. Pkt. 25c; 1/16 oz. 85c; 1/8 oz. \$1.50; 1/4 oz. \$2.75; 1/2 oz. \$5.25.

1077—Triumph of Giants (Armstrong & Royston Strain). A super-pansy; lovely, distinctive strain,

bearing extra large flowers prettily blotched, strong stems. A fine range of colors. Pkt. 50c; 1/16 oz. \$1.35; 1/8 oz. \$2.50; 1/4 oz. \$4.75.

1079 — Pacific Majesty (Trimardeau). Where a large flower of good quality and assortment of colors is wanted for bedding or border you will find this one entirely satisfactory. Pkt. 15c; 1/16 oz. 45c; 1/8 oz. 80c; 1/4 oz. \$1.35; 1/2 oz. \$2.35.

1078—Oregon Giants (Mastedon). Fine, well-formed large flowers, somewhat flattened and "full-faced." Excellent colors and markings. Pkt. 50c; 1/16 oz. \$1.35; 1/8 oz. \$2.50; 1/4 oz. \$4.75.

FRASER'S VARIETY PANSY. BLEND NO. 1100

A choice mixture of 10 choice strains and separate colors. Large flowers of uniform size and beautiful colors and markings. Exceptionally fine for bedding. Pkt. 25c; 1/2 oz. \$2.50; oz. \$4.00.

1071 ROGGLI SUPER SWISS GIANT PANSY. Pkt. 50c.

VIOLA—Tufted Pansies

- 1106—Blue Perfection Clear violet blue.
- 1103—Cornuta Papilio. Butterfly blue.
- 1104—Lutea Splendens. Canary yellow.

Any of above.

Pkt. 15c; 1/8 oz. 50c

1101—Apricot. A delicate apricot, shaded orange toward center. Pkt. 25c.

1102—Jersey Gem. A rich violet color, fragrant and vigorous grower. Pkt. 50c.

1109—Viola Mix. A well balanced mixture of all the above violas. Just what you need for the rock garden for a variety of color. Pkt. 25c.

BABY PANSY

1108—Little Johnny Jump-up (Viola Tri-color. Heartsease). Diminutive, small elfin face, no larger than your thumbnail. Rich yellow, blotched and marked with violet-blue and dark maroon. Captivating and sweetly fragrant, a rare gem for your garden. Pkt. 15c.

REHMANIA—Beverly Bells

Herbaceous perennial, native to China. Grows 2 to 3 feet high. Sow in the open ground or flats during Fall in California and Southern States. Likes partial shade on east exposure, and well drained soil. Blooms in late Spring and early Summer.

2001—Rehmania angulata. A lilac-rose beautifully shaded with cream and marked with purple spots in the throat.

2002—Rehmania, Fraser's Hybrids. Creamy white, with rosy-lilac spots.

Above packets 35c each

PRIMULA—Primrose

These plants are among the first to bloom in the Spring, some are hardy outside while others are tender perennials suited for indoor culture. Outdoor varieties prefer a rich soil and semi-shady location.

Tender Varieties

2821—Giant Obconica. The plants are liberally covered with clusters of delicate butterfly-like flowers in shades of crimson magenta, rosy lilac and bluish violet. Pkt. 35c; two for 60c.

2823—Sinensis Fimbriata Mixed. Fringed Chinese Primrose. Large flowered, fringed type in beautiful colors. Pkt. 35c.

Hardy Varieties

2824—Primrose Polyanthus (Cowslip). Large flowers, yellow shades. Grows 6 to 8 inches tall, fine for rock gardens. These are the famous giant Munstead strain. Pkt. 35c.

STATICE

2700—Bird of Paradise. Everlasting in pastel shades. Can be planted from August to November and will produce beautiful flowers the following spring. For permanent corsages and bouquets, Fraser's pastel colors are now famous. Packet 25c.

1201—Thalictrum. Fraser's Fairy Bell. Dainty mauve and primrose flowers make this a bouquet mixer equal to Gypsophila. Large Packet 25c; 1/8 oz. \$1.00.

New Giant Annual SCABIOSA

Giant's Pincushion

1192—Giant Hybrids Mixed. Certainly a big improvement in size compared with ordinary strains. The flowers are huge and plant is vigorous grower. Offered this year in a fine range of mixed colors only. The scabiosa needs no recommendation as a cut flower and if you haven't planted them lately you should by all means make room in your garden for this new one. We know you will be more than pleased. Pkt. 25c.

No. 1189—PERENNIAL SCABIOSA. House Strain of Giant Hybrids. The largest of all Scabiosas; light lavender to darkest blue, a flower that should be in every garden. Packet 35c.

2572 PHLOX DRUMMONDI. For a brilliance of color and dazzling display in beds and borders, they have few equals. Photograph of our Art Shades Mixture. Packet 25c.

NEW CALIFORNIA PETUNIAS

Giant Flowered Bedding Petunias

616—Gay Pacific Mixed. Very choice. Flowers medium-single and frilled of many textures. Pkt. 25c; 1/28 oz. 75c; 1/64 oz. \$1.35; 1/32 oz. \$2.50.

Small Flowered Bedding Petunias

Nana Erecta

597—Rosy Morn. Very popular. Dainty, rose-pink flowers, marked with wide, white throat literally cover the plant.

Pkt. 15c; 1/16 oz. 40c; 1/8 oz. 70c

581—Violacea. Deep violet flowers of soft, velvety appearance. The best violet. Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c.

Large Flowered Bedding Petunias

Balcony Petunias

584—Balcony Choice Mix. A colorful blend of many colors including some white. Pkt. 15c; 1/16 oz. 60c; 1/8 oz. \$1.10.

MARIGOLD

(French)

Hardy annual. One of the best Fall and Winter flowers.

TALL FRENCH

377—Ramona Brown. Pkt. 15c; 1/4 oz. 25c.
379—Tall French Stripped. Pkt. 15c; 1/4 oz. 25c.

DWARF FRENCH

362—Golden Ball. Double golden yellow flowers. One of the finest border plants. Pkt. 15c; 1/4 oz. 25c.
365—Robert Beist. Brown and gold. Pkt. 15c; 1/4 oz. 25c.
366—Fraser's Golden Blend. Pkt. 15c; 1/4 oz. 25c.

Pkt. 15c; 1/4 oz. 40c; 1/2 oz. 70c.

SALPIGLOSSIS. Richly colored and velvety texture of the gold veined petals make Fraser's Lily-Flowered strain gorgeous for cut flowers. No. 449—Pkt. 15c.

Plant These Hardy Annuals

All Through the Fall

ANNUAL PHLOX

Drummondii Grandiflora

One of the best liked hardy annuals grown easily from seed. Flowers are produced on large trusses in brilliant colors, making them a dazzling feature in any garden. They should be planted in solid beds for best effect.

Start in seed flats and transplant when large enough to handle. The plants grow ten or twelve inches in height, sometimes even more in rich soil. In good soil set 12 inches apart and somewhat closer in poor soil. They can also be planted in open ground. For California and mild sections sow from August to March.

2579—Fraser's Geranium-Flowered Mixture. Blend of harmonious colors.

2566—Star Gleam. Flowers come in beautiful shades of pink, rose, red and petals are curiously fringed and starred.

2572—Novelty Phlox. New art shades individual flowers, will cover a 50c piece, the largest flowered Phlox today. Pkt. 25c.

Any of above.

Pkt. 15c; 1/4 oz. 40c; 1/2 oz. 70c

MIGNONETTE

Reseda odorata grandiflora

We have a splendid strain of this winsome old garden flower. The plants will produce long spikes of full bloom, sweetly scented and delightfully colored in about 90 days from seed sowing. It should never be transplanted. Sow in a cool, moist place in early Fall (September) for early Spring flowers; if possible with an eastern exposure where only the morning sun will reach it. It can be grown practically any time in pots.

2541—California Gt. Gold Yellow.

2542—Salmon Queen, Salmon.

Pkt. 15c; 1/4 oz. 30c; 1/2 oz. 50c

2543—Colonial Dame. The favorite of grandmother's day with all the fragrance this sweet mignonette ever had. The same today as 1776.

Pkt. 15c; 1/4 oz. 25c; 1/2 oz. 40c

GOLD VEINED SALPIGLOSSIS

Fraser's Lily Flowered

Plant seed successfully in August, September, October and November. Germinates in 5 to 8 days.

A half-hardy annual, the flowers being trumpet-shaped with wide, flaring petals, velvety in texture, rich in color and beautifully veined in gold. The plants are of a rather loose habit, growing to two feet or more in height, and should not be planted less than a foot apart. Sow them in a well prepared bed of light, sandy soil. Transplanting is not always satisfactory and if possible we recommend sowing where plant is to stand. One of the easiest of all annuals to grow if sown on the surface of well prepared ground and pressed in.

441—Chamois and Gold.

442—Light Blue and Gold.

443—Violet and Gold.

444—Rose and Gold.

445—Purple and Gold.

446—Scarlet and Gold.

Any of above

Pkt. 15c; 1/8 oz. 35c; 1/4 oz. 60c.

449—Fraser's Lily-Flowered Mix. By far the finest, largest and most colorful of all Salpiglossis. Flowers come in many beautiful colors, exquisitely veined and shaded in contrasting colors. Unsurpassed as cut flowers. Pkt. 15c; 1/8 oz. 35c; 1/4 oz. 60c.

459—Gold Veined Salpiglossis. Velvety in texture, brightly veined with gold pencillings against backgrounds of rich colors. Different than the ordinary Salpiglossis and once you have planted this one you won't give garden space to the old ordinary solid colored varieties. Pkt. 20c; 1/8 oz. 40c; 1/4 oz. 70c; 1/2 oz. \$1.25.

FRASER'S WINTER MARIGOLD

"Golden Bonnet"

369—Color, henna-red petals with a golden yellow crested center; 2 inches. Mild fragrance, will bloom when other Marigolds are through. This is a strain that came from Australia, but has been acclimated to Southern California conditions. It will be a great boon to winter gardeners in sections where frost is not too severe. Plant seed from July 15 until December. It will stand pinching back once if planted in July to make it stool out, and give sturdier plants and flowers. Pkt. 25c.

No. 1926—SWEET BRIAR. Double Shirley Poppy. Packet 25c.

ANNUAL POPPIES

No annual will bring such a riot of brilliant color into the garden as the annual poppies. These flowers should be sown with a generous hand and thinned after they have come up so that the plants are about 12 inches apart in the larger varieties and 6 inches apart in the smaller types. Start sowing seed of the following list in September or in California and mild localities, and just previous to late heavy frosts in colder sections. Seed requires 2 to 3 weeks for germination.

Fraser's Double Shirley Poppies

1926—Sweet Briar. Large, full double flowers of exquisite rose-pink shade. A real beauty we can heartily recommend. Pkt. 25c; 1/4 oz. 60c; 1/2 oz. \$1.00; 1 oz. \$1.75.

1921—Art Shades. Unusual colors in Indian and Carmine-Lake tones.

Pkt. 25c; 1/4 oz. 30c; 1/2 oz. 50c

1922—Eldorado Blend. Large double flowers in Chinese orange-reds.

Pkt. 15c; 1/8 oz. 35c; 1/4 oz. 60c.

1923—Fraser's Hybrids. Produces a pleasing variety of sunset reds.

Pkt. 15c; 1/4 oz. 40c; 1/2 oz. 70c

1924—Cossack. A fine large double flower of orange-scarlet. We believe that this is the finest addition to the Shirley poppies in recent years. Pkt. 25c; 1/4 oz. 60c; 1/2 oz. \$1.00.

1927—New Feathered Poppy. Each blossom gives the appearance of a ball of finely cut ostrich feathers. Height 2 feet. A mixture of Salmon, Whites and Pinks. Pkt. 25c; 1/2 oz. \$1.

Peony-Flowered Poppies

1935—American Flag. Double Peony-Flowered. Plants are thrifty, upright growers 2 1/2 to 3 feet, bearing immense double flowers; smooth edged petals of white background, margined with flashing scarlet.

Pkt. 15c; 1/2 oz. 25c; 1 oz. 40c

1934—Double Peony-Flowered, Mixed. Flowers and plants are like above, but colors range through shades of rose, pink, red, yellow and white.

Pkt. 15c; 1/2 oz. 25c; 1 oz. 40c

POPULAR POPPIES

Collection No. 1940

1940 Includes one packet each of Sweet Briar, Art Shades, and Double Peony-Flowered Mixed.

Value 65c..... **50c**

No. 366—FRENCH MARIGOLD
Fraser's Golden Blend. Pkt. 15c.

No. 190—ICELAND POPPY—California Giant Burnt Orange Shades. Note the large sized flower and plant, also unusual vigor and floriferous habit. The fall months are ideal for starting this seed and you'll certainly be well repaid this spring when these beauties come into bloom. Pkt. 25c.

GAILLARDIA

Navajo Blanket Flower

They are profusion bloomers and furnish an abundance of brilliant cut flowers as well as an extremely colorful display in the garden. They thrive in full sun.

2447 Indian Summer Hybrids. A recent introduction producing plants commonly bearing flowers measuring 4 inches across. The petals are maroon and golden yellow with bronzy red shadings.

Pkt. 25c; 1/8 oz. 55c; 1/4 oz. \$1.00

2448 Grandiflora Dazzler. A giant red with orange tips.

Pkt. 20c; 1/8 oz. 45c; 1/4 oz. 90c

2449 Grandiflora Tangerine. A self-colored variety in a strong shade over-laid with red.

Pkt. 20c; 1/8 oz. 45c; 1/4 oz. 90c

GEUM

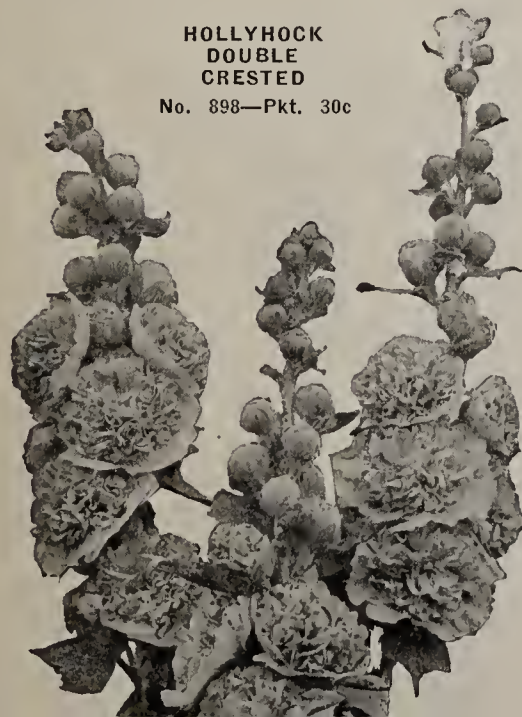

Royal Crown Flower

A most worthy hardy perennial not well enough known. Grows in any rich, well drained soil and best in a sunny location. Fine for cutting, growing 1 1/2 to 2 ft. Start seed in Fall and Winter over in the cold frame.

2816 Mrs. Bradshaw. A beautiful double orange scarlet.

Pkt. 20c; 1/8 oz. 55c

2817—Lady Stratheden. Bright yellow, double flowers. Pkt. 25c.

HOLLYHOCK
DOUBLE
CRESTED
No. 898—Pkt. 30c

POPPIES . . . Perennial Varieties

The perennial poppies are among the most colorful of all garden flowers. Start sowing seeds of the following list in September in California and mild localities, and just previous to late heavy frosts in colder sections. Best results are obtained by sowing seed where they are to stand.

ICELAND POPPIES

(Papaver Nudicaule)

Perennial, in cold localities, although plant is usually at its best the first and second year in California and mild climate. Grows about 1 ft. tall and blooms profusely.

1901 California Giant Burnt Orange Shades. Grows 1 1/2 to 2 ft. and produces larger flowers than any other variety we have ever seen.

Pkt. 25c; 1/8 oz. 65c; 1/4 oz. \$1.20

1902 California Rose-Pink Shades. Not quite as tall or large flowered as above but the best in pink shades.

Pkt. 25c; 1/8 oz. 65c; 1/4 oz. \$1.20

1903 Iceland Poppy Fakenham Hybrids Australian Strain. Pkt. 15c

1900 Pasadena Sunbeams. Pastel shades of yellow, orange, orange-scarlet, rose and white.

Pkt. 20c; 1/8 oz. 40c; 1/4 oz. 70c

GLAUCIUM HYBRIDA

1929 Mission Bell Poppy. This perennial attains a height of 3 and 4 ft. in California and about 2 ft. in the East. Tulip-like blossoms of bronzy-orange and chrome-yellows as an annual or biennial in cold climates—fall sowing being preferred.

Pkt. 15c; 1/4 oz. 25c; 1/2 oz. 40c

ORIENTAL POPPIES

(Papaver Orientale)

This group grows 2 to 3 ft. tall, flowers are of immense size, very colorful and fine as cut flowers when picked in the bud. Plant in late Spring and Fall for flowers the following Summer.

1945 Colosseum. Flowers often measure 6 in. across and are dark flashing scarlet with a black spot at the base of each petal. Pkt. 25c

1946 Prince of Orange. Scarlet-orange, very striking, vigorous grower and prolific producer. Pkt. 25c

1947 Fraser's Giant Hybrids. Flowers immense, 6 to 8 inches across and a fine range of colors. Pkt. 25c

HUNNEMANNIA

1928 Mexican Tulip or Santa Barbara Poppy. Flowers are large, tulip yellow, fluted petals, borne on long, stiff stems set with delicate foliage. Good for cutting as it will keep for days. Very effective grown in masses. Perennial in mild climates but usually treated as an annual in cold climates.

Pkt. 15c; 1/4 oz. 25c; 1/2 oz. 40c

SEND FOR OUR SPRING CATALOG—READY IN JANUARY

HOLLYHOCKS

The Hollyhock is a valuable acquisition for the gardener because of its effective landscaping possibilities.

CHARTER'S DOUBLE PRIZE STRAIN

904 Deep Rose	Pkt. 25c
905 Maroon	1/8 oz. 35c
906 Salmon Rose	1/4 oz. 60c
907 Scarlet	1/2 oz. \$1.00
908 Sulphur Yellow	

909 Exquisite Mixed. Choice blend of many rich colors in fringed and double types. Pkt. 25c; 1/8 oz. 60c; 1/4 oz. \$1.00.

896 Imperator Hollyhock. Lavender princess crested. Pkt. 25c.

897 Double Orange Prince. Rich apricot orange. Pkt. 25c.

898 Double Imperator Hybrids. A beautiful novelty with large fringed flowers measuring 6 inches across and set almost solid on the flower stalks. Colors range from pink, cerise, lavender to red. Pkt. 30c; 1/8 oz. 70c; 1/4 oz. \$1.25.

899 Fraser's Hollywood Star Mixed. Single and semi-double; early flowering. Colors are purple, deep rose, Chinese scarlet, flesh pink, primrose white. Pkt. 25c; 1/8 oz. 60c; 1/4 oz. \$1.00.

HOLLYHOCK

Double Crested

900—Souvenir Mme. De Perrin. A gorgeous new Hollyhock resembling the double crested Begonia. Colors are mixed, ranging from light chamais to deep maroon, with the deeper colors predominating. Pkt. 35c.

PENTSTEMON

Hybrid Grandiflora

A hardy perennial of growing popularity as a bedding plant. The flower spikes rise about two feet, hung with gloxinia-shaped blooms in white, pink, rose, crimson, lavender and purple shades.

1119—Gloxinia-Flowered Mixed. Pkt. 15c; 1/8 oz. 85c; 1/4 oz. \$1.50

1130—Blue Gem. A small type, ideal for rock gardens. Pkt. 15c; 1/8 oz. 50c; 1/4 oz. 90c

GERANIUM

Pelargonium Zonale Tender Perennial—2 Ft.

This popular eastern house plant is at its best in California where it grows luxuriantly outdoors the year around. Sun Ripened seed is the pick of the very best strains of Zonale, producing immense trusses measuring 4 to 6 inches across and individual flowers 1 1/2 ins. **971—Sunshine Mixture.** A mixture of striking shades of scarlet, crimson, pinks, creamy white and other pleasing colors. Pkt. 20c

CORAL BELLS

Heuchera

1043—Brizoides Hybrids. (Novelty). Stronger and taller than either Sanguinea Splendens or Fraser's Hybrids. Flowers are larger and colors range from deep rose to rose tinted buff. Excellent for cut flowers and very colorful in a perennial border. Grows 18 to 24 inches. Pkt. 35c

1041—Sanguinea splendens. This stem of Sun Ripened seed is the finest of the red sorts. Flowers beautiful shade of coral-red. Pkt. 25c

GERBERA TRANSVAAL DAISY

Rich pastel tints, graceful and airy. A distinctive attraction in your garden.

961—Fraser's Pastel Colors Mixed. Pkt. 25c.

962—Gerbera. Fraser's Gerbera African Sunshine Mixture. A mixture of rich shades, graceful and alluring in a marvelous symphony of colors. Wonderful for cutting, lasting very well indoors. Pkt. 25c.

No. 962—AFRICAN SUNSHINE DAISY

FRAGRANT STOCKS ... Gilli Flower

Plant seed from August through November for Winter and Spring flowers. Seed germinates in 5 to 10 days.

If you were to have but one flower in your garden we would recommend Stocks, for it seems to be well nigh indispensable. They have the color, beauty of individual flower, as well as the flower stalk as a whole, besides a wonderful fragrance that few other flowers can equal. Our strain of Sun Ripened Seeds will give you enormous pyramids of double-blossoms so thickly set that they over-lap, and they will produce a very high percentage of double flowers.

Many exaggerated claims as to the percentage of double flowers in Stocks has led amateur gardeners to think that all of their Stocks would be double. Double Stocks are not seed producing flowers, they are really freaks, the singles only reproduce seeds. Strains producing a high percentage of doubles are the result of plant selection.

To have a bed of all double stocks we suggest that you sow seed thickly in open ground, if plants are started in the cold frame, set out young seedlings very close together, then thin out all the singles when plants flower, leaving only the doubles. You will have a glorious bed of double Stocks.

CALIFORNIA GIANT PERFECTION STOCKS

Perpetual Branching

Well developed plants grow 2½ to 3 feet high, somewhat larger than Early Giant Imperial. Long, strong branching stems. Is also valuable for greenhouse growing for Winter and early Spring cut flowers. Will run approximately 60 per cent doubles.

762—Giant Perfection Terra Cotta. A rose-shaded terra cotta.

763—Giant Perfection Flesh. A beautiful light pink.

764—Giant Perfection Red. Brilliant crimson red.

765—Giant Perfection Yellow. This beautiful canary yellow received recognition from the Royal Horticulture Society.

766—Giant Perfection Lilac. A fascinating silvery-lilac shade.

767—Giant Perfection Violet. A deep violet shade with a bluish cast.

Any of above colors

Pkt. 15c; 1/8 oz. 65c; 1/4 oz. \$1.15

769—Giant Perfection Blend. A well proportioned mixture of above colors.

Extra Large Pkt. 15c; 1/8 oz. 55c; 1/4 oz. \$1.00

FOUR STOCKS

Collection No. 770

770—Includes one packet each of Yellow, Violet, Flesh and Terra Cotta.

GIANT PILLAR STOCKS

A Ten Weeks Variety

The large individual flowers placed on the stem almost from top to bottom form a vividly colored pillar of large flowers. This vigorous column stock has practically no branches. Individual flowers often 3 inches across. Each plant produces one flower pillar 2 feet high.

Sow in July and August for Winter flowering. Set plants in garden 4 inches apart.

771—Pillar Red

772—Pillar Rose

773—Pillar Carmine

774—Pillar Lilac

775—Pillar Violet

776—Pillar White

779—Mixed Colors

Any of above colors

Pkt. 25c; 1/16 oz. \$1.00; 1/8 oz. \$1.80

LARGE FLOWERING DWARFS TEN WEEKS STOCKS

799—Dwarf Mix. Plants grow 15 to 18 inches and produce a high percentage of double stocks sweetly scented. This mixture contains a fine color range of pinks, reds, purples, lavender and some white.

Pkt. 15c; 1/8 oz. 50c; 1/4 oz. 85c

A field of our GIANT STOCKS.

EARLY GIANT IMPERIAL STOCKS

Improved Bismark

The earliest blooming stock, about 10 days ahead of Giant Perfection. Long stems branching from main stem just above the ground. Grows 2 to 2½ feet high, not quite as large a plant as Giant Perfection, but will produce about 10 per cent more double flowers. Very floriferous. Of special value for greenhouse growing for cut flowers in winter months and recommended for Winter and early Spring blooming in California and Southern States, where it can be sowed from August to December.

710—Giant Imperial Blue. A beautiful dark blue with violet cast.

711—Giant Imperial Red. A fiery blood red.

712—Giant Imperial Pink. A very delicate shade of light pink.

714—Giant Imperial Sweet Lavender. A pure lavender and very fragrant.

715—Giant Imperial Golden Rose. New; a light golden rose.

Any of above colors

Pkt. 15c; 1/8 oz. 70c; 1/4 oz. \$1.25

713—American Beauty Rose. A perfect double deep rose color. New.

Pkt. 20c

717—Buttercup. The best of all yellow stocks. Pkt. 20c; 1/16 oz. 60c; 1/8 oz. \$1.10; 1/4 oz. \$2.00

718—Giant Imperial White. Pkt. 20c

716—Giant Improved Blend. A well balanced mixture of all the above colors.

Extra Large Pkt. 20c; 1/8 oz. 60c; 1/4 oz. \$1.10

IMPERIAL FIVE

Collection No. 720

720—Includes one packet each of Sweet Lavender, Blue, Rose, Buttercup.

Value 70c.....

50c

PERENNIAL EASTER STOCKS

Improved Emperor or Perpetual Perennial Stock

This is a perennial of splendid intermediate type and will flower for two years in mild climates. Averages 1½ feet high. The proportion of double flowers runs about 70 per cent; one of the highest of all stocks. Flowers about Easter from seed sown in the early Fall. Sow in July, August and September. In the Northern States these little plants can be wintered over in the cold frame. They are hardy and make sturdy, strong growing plants for setting out in the Spring. Recommended especially for California and Southern States.

787—Fraser's Easter Rose.

786—Fraser's Easter Violet.

788—Fraser's Easter White. 789—Mixed Colors.

Pkt. 20c; 1/8 oz. 60c; 1/4 oz. \$1.00

VIRGINIAN STOCKS

French Forget-Me-Nots

A hardy annual grown about a foot high, flowers about ¾ of an inch across. A fine plant for borders and cover for bulb beds. Blooms from spring to fall. Plantings may be made in the the spring as soon as the ground is warm. Sow seed in fall for early spring blooms.

2749—Fraser's Compact Blend. A mixture of rose to white Pkt. 15c; oz. 50c.

809—Delicious fragrance and selected variety of the best colors in the Imperial and Perfection groups. See color illustration on cover page.

Extra Large Pkt. 25c; 6 Pkts. for \$1.00

BEAUTY OF NICE

749—Beauty of Nice Blend. A well balanced mixture of beautiful, delicate shades. This variety is tall growing and exceptionally good for Winter flowers in mild localities.

Pkt. 15c; 1/8 oz. 50c; 1/4 oz. 85c

713 EARLY GIANT IMPERIAL (Bismark) STOCKS. American Beauty Rose. Packet 20c.

Old Fashioned Perennial, Biennial and Annual Flowers

All are fully described so you will make no mistake in selecting for your particular needs. The group listed here are especially suitable for Fall planting.

COREOPSIS Golden Wave

One of the easiest grown and best liked of the hardy perennials; highly prized for cutting, very free flowering for many weeks.
2812—*Fraser's Flora Plena*. A recent introduction, you'll like this one; much prettier and more attractive than the single. Flowers are semi-double and clear gold.

Pkt. 25c; 1/2 oz. 70c

2813—*Hazel Eyed Coreopsis (Auricula Superba)*. Far more attractive than the old single. A much deeper, richer golden yellow with each petal marked with hazel-brown spot at the base.

Pkt. 25c; 1/8 oz. 60c; 1/4 oz. \$1.00

CAMPANULA SUPERBA

There is magic in the very name of this old-time favorite. Being a hardy biennial, it is best in most localities when planted in the late Spring and Fall for blossoms the following year. The single varieties will usually bloom in May and June and the cup and saucer varieties from June to August.

CUP AND SAUCER BELL TYPE (*Campanula calycanthemata*)

1165—Rose	}	Pkt. 25c
1166—Dark Blue		1/8 oz. 45c; 1/4 oz. 75c
1167—Light Blue		
1168—White		
1169—Mixed Colors.		Pkt. 15c; 1/8 oz. 35c; 1/4 oz. 60c.

SINGLE BELL TYPE

1135—Rose	}	Pkts. 15c
1136—Dark Blue		1/8 oz. 25c
1137—Light Blue		1/4 oz. 40c
1138—White		
1139—Mixed Colors		

Annual Canterbury Bell

1153—Many years of careful selection have at last given us an Annual Canterbury Bell which blooms from seed in less than six months. The plant grows from 2 to 2 1/2 feet tall, each plant having from 6 to 8 spikes of blooms. Seed planted in February blooms in July. In mixed colors only. Pkt. 25c; 1/8 oz. \$1.10; 1/4 oz. \$2.00.

GYPSOPHILA

Perennial Baby's Breath

2458—*Princess Snow-White*. The standard bouquet "mixer." Grows quickly from seed into a vigorous plant about three feet high and is covered with tiny double flowers for many months of the year. Pkt. 25c.

Annual Baby's Breath

2456—*New Los Angeles Market Variety*. A select strain of the white. Pkt. 15c; oz. 25c
2457—*Exquisite Rose*. A new color. Bright carmine and a fine mixer. Pkt. 15c; oz. 50c

ANNUAL GYPSOPHILA

2460—*Fraser's Snow Storm*. White. Greatly improved strain of annual Gypsophila (Baby's Breath). The individual blooms are twice the size of the regular type. Pkt. 25c; oz. 50c.

COSMOS

Early Giant Flowering. Annual. This class of Cosmos will produce in late Winter and early Spring. The flowers are large and the plants about 3 feet high.

464—*Fraser's Color Harmony Mix*. A choice blend of all above colors. Pkt. 15c

465—*Fraser's Klondike Gold*. A late single, suitable for Southern States only. A profusion of glistening tangerine gold flowers covering plants 5 feet high. Fine for cutting. Likes full sun. Pkt. 15c

EARLY GIANT COSMOS No. 464.

DIGITALIS Foxglove

A magnificent stately plant growing 5 to 7 feet tall. Four foot flower spikes are thickly set with bloom in white, rose and purple with dark spots and markings. A biennial, blooming best the second year from seed planted during late Spring and Fall.

951—*Shirley Mix*. Very showy with open bell-like flowers of many bright colors. Pkt. 15c; 1/8 oz. 35c; 1/4 oz. 60c.

952—*Fraser's Salmon Hybrids*. Giant flowers in pleasing shades of salmon, beautifully marked with darker spots. Pkt. 25c; 1/8 oz. 60c

GIANT ENGLISH DAISY

Bellis Perennis Monstrosa

A vastly improved strain producing extra large flowers and foliage. Flowers often 2 inches across. One of the best early Spring bedding plants.

2781—*Fraser's White*.

2782—*Fraser's Rose-Pink*

2789—*Fraser's Blended Mix*

Pkt. 15c; 1/8 oz. 60c; 1/4 oz. \$1.00

2734—*Fraser's Versi-Color Giant*. A novelty variegated; white with rose penciled petals. Pkt. 25c.

2785—*Fraser's Lilac Gem*. A new color in this popular flower, one the growers have all been striving for. Pkt. 25c.

2773 CATHERINE THE GREAT COLUMBINE (*Aquilegia oxysepala*). Native of Siberia. One of the first to bloom, one of the most attractive; large flowers of blue, yellow, and white. Pkt. 25c.

No. 1169—CAMPANULA SUPERBA. Cup and Saucer Type. Mixed. Pkt. 15c.

AQUILEGIA

Columbine Long Spurred Varieties

The new long-spurred varieties of this graceful, hardy perennial have been responsible for its ever-increasing popularity. Seed should be sown during Fall months for bloom the following year. Thrive in semi-shade in soil well mixed with leaf mold. They are slow to germinate, requiring 3 to 4 weeks, and sometimes almost two months. For this reason it is a good plan to cover the seed bed with a light layer of leaf mold or peat moss.

2767—*Long-Spurred Hybrids*. Blue.

2768—*Long-Spurred Hybrids*. Pink.

2769—*Long-Spurred Hybrids*. Mixed. Beautiful shades of pink, blue, scarlet, and orange.

2774—*Copper Queen*. Quite the loveliest Columbine yet produced. The petals and outside of the corola are rich copper shades, the long spurs being of a darker shade.

Any of above

Pkt. 25c; 1/16 oz. 60c; 1/8 oz. \$1.00

2766—*Golden Trumpet. Longissima*. Clear yellow. Has the longest spurs of all, often 4 to 5 inches. A novelty. Pkt. 35c

2771—*Rocky Mountain Columbine*. One of the old standbys. Beautiful blue shades.

Pkt. 15c; 1/8 oz. 50c; 1/4 oz. 85c

2772—*California Hybrida*. Grows 2 to 3 feet. Golden yellow flowers and red spur.

Pkt. 15c; 1/16 oz. 35c; 1/8 oz. 60c

GIANT ENGLISH DAISY
No. 2739—Pkt. 15c.

Vegetable Gardening Combined with Flower Gardening — Why Not?

Every home should cope with the situation of going back to the farm. YOU do your little part, and it will give you a world of pleasure, and tender, sweet vegetables.

One seldom realizes the great amount of good, wholesome vegetable food that may be produced from a few short rows of vegetables combined with the flower garden. The foliage on all the Fall vegetables is pleasing to the eye, and does not take away from the effect of the garden at all; moreover it adds to its beauty. In order to have them at their best, seeds of many vegetables should be sown at frequent intervals through the Fall season. Beets, carrots, onions, spinach, lettuce, cabbage, cauliflower, golden celery, garden peas, and radishes are not easily affected by frost.

HERBS

The Natural Seasoning for Foods
All Packets 10c Each

Anise—Used as a cordial and for garnishing and flavoring seeds have an agreeable aromatic taste.

Basil—Sweet. The leaves are used for flavoring soup, stews and highly seasoned dishes.

Borage—The leaves are used for flavoring and the flowers furnish bee pasture.

Caraway—Grown for the seeds, which are used extensively for flavoring of bread, pastry, etc.

Catnip or Catmint—The leaves are used for seasoning. It also makes an excellent bee pasture.

Chervil—Used in soups and salads.

Corlander—The seeds are used in the manufacture of liquors and confectionery.

Dill—The seeds have an aromatic odor and warm, pungent taste. They are used as a condiment and also for picking cucumbers.

Lavender—Used chiefly in the manufacture of perfumery.

Marjoram—Sweet. The leaves and the ends of the shoots are esteemed for seasoning in Summer and are also dried for Winter use.

Rosemary—The aromatic leaves are used for seasoning.

Sage—The most extensively used of all herbs as a seasoning for dressing.

Sorrel—Used in sous and saplads for its pleasing flavor.

RADISH—French Breakfast, White Tipped

HERBS—10c. each.

Summer Savory—A hardy annual. The dried stems, leaves and flowers are extensively used for flavoring—particularly in dressings and soups.

Saffron—Used for flavoring.

Thyme—Used for seasoning.

KENTUCKY WONDER POLE BEAN.
2 oz. pkt., 10c; lb., 70c.

TRY THIS—Veg-Beauty Salad

6 slices tomatoes
1 cup green peas
1/2 cup diced celery
2 tbsp. chopped green peppers
2 tbsp. chopped onions

Mix with oil and lemon, chill and serve on bed of lettuce.

INSECT-O-GUN

\$4.00
Postpaid

By simply using the water pressure in a garden hose you can now effectively spray your flowers and shrubs and trees with the same efficient results secured by power spraying methods. The Insect-O-Gun is equipped with a standard pint mason jar and can be used with any insecticide requiring water solution. No adjustment necessary. Write for descriptive folder.

DAFFODIL—GLORY OF SASSENHEIM.

Polanthyus Narcissus

Delivery September 1st

These Narcissus are the earliest to bloom and if planted in September will flower as early as December and January. In California and southern states they are fine for beds, and borders, furnishing an abundance of cut flowers. Extensively grown for house decoration in pots and bowls where they can be flowered all winter by successive plantings. Deliciously sweet scented and "free flowering."

Paper-White Grandiflora. Pure white flowers. A favorite for growing in bowls filled with water and pebbles.

3 for 20c; 6 for 35c; 12 for 60c

Soliel d'Or. Yellow perianth and bright orange cups. A fine variety for cutting.

3 for 40c; 6 for 70c; 12 for \$1.25

Aspasia. Large, pure white perianth; rich yellow eye. Vigorous grower. Four to five flowers on a stem. 3 for 20c; 65c per doz.; \$4.75 per 100.

California Grown

Chinese Sacred Lily

This is the most popular bulb for growing in a dish or bowl of water. The bulbs should be placed on some coarse sand or pebbles in the bottom of a dish, and enough water should be added from time to time so that just the bottoms of the bulbs are kept covered. The dish should be kept in a cool and rather dark place for two or three weeks. As soon as the tops and roots are well started the dish can be brought to light and living room temperature, where they should come into bloom, brightening the room with their cheerful color and fragrance.

Chinese Sacred Lily. Flower is pure white with tiny cup of orange scarlet.

3 for 30c; 6 for 50c; 12 for 90c

AMARYLLIS. Giant American Hybrid. Huge flowers, colorful and unexcelled as a pot plant.

NARCISSUS or DAFFODILS

All Narcissus bulbs ready for delivery September 1st

The Narcissus is considered about the finest of the hardy early Spring flowering bulbs. A flower everyone knows and loves. They seem to do well in a wide variety of soils and situations; are ideal for naturalizing under trees, on slopes, banks of streams, meadows or in the shrubbery beds. While all conditions seem suited to their culture, they do best in good, deep, well drained soil and partial shade. Planted and left in the ground they will make a finer showing each succeeding year. Used extensively for winter flowering in pots and bowls.

All the large type Narcissus bulbs offered by us are grown in Oregon, while the Polyanthus types are grown in Southern California, where the best of this type is produced.

Short-Cupped Narcissus

Poeticus Ornatus. The favorite of this type. White perianth and light yellow cup margined with orange-red.

3 for 30c; 6 for 55c; 12 for \$1.00

Jonquil (Narcissus Odorus)

Giant Campenelle rugulosus. The finest of the hybrids. Deep golden yellow flowers and wondrous fragrance, size and foliage make it the best for cutting. 3 for 40c; 6 for 70c; 12 for \$1.25.

SOLIEL D'OR.

Large Trumpet Narcissus

Emperor. Large flowers; deep primrose perianth and deep yellow trumpet.

3 for 40c; 6 for 60c; 12 for \$1.00

Glory of Sassenheim. White perianth, golden yellow trumpet.

3 for 45c; 6 for 75c; 12 for \$1.25

King Alfred. A fine variety. Clear golden-yellow perianth and trumpet, fringed at mouth.

3 for 55c; 6 for \$1.00; 12 for \$1.50

Spring Glory. A beauty. Clear white perianth and deep yellow trumpet.

3 for 45c; 6 for 75c; 12 for \$1.25

ROYALTY GROUP

Collection No. N-57

12 bulbs, 3 each of Emperor, Glory of Sassenheim, King Alfred and Spring

Glory. Regular \$1.85 value..... **\$1.35**

Firebrand (Barri). Creamy white perianth and glowing red cups.

3 for 30c; 6 for 55c; 12 for \$1.00

Sir Watkins (Incomparabilis). A buttercup-yellow perianth and deep yellow cup.

3 for 30c; 6 for 55c; 12 for \$1.00

Mixed Trumpets. For naturalizing.

6 for 50c; 12 for 90c; 14 for \$1.00

HARDY GARDEN LILIES

AMARYLLIS

The Giant Flowered strain we are offering is from the finest prize winning stock in the country. Prized for their gorgeous colors and immense lily-like flowers. In California and mild sections they may be planted outside, while in cold climates they should be potted and kept warm and rather dry during the winter. When growth starts in the Spring, keep moist.

Giant American Hybrids. This is the finest of all Amaryllis. The flowers are wonderful in size and form with white or red ground, of varied markings and self-colors ranging through rose, crimson, red, scarlet and maroon. Mixed colors only. Large bulbs, 60c each; \$6.00 per dozen. Add 5c per bulb for postage. Delivery from October to March.

AGAPANTHUS

Heavenly Blue Lily of the Nile

Bright, blue flowers are borne in clusters on long strong stems throughout summer months. Used in California and mild climates as an outdoor garden plant, but as a house and conservatory plant in northern states. Grown in large tubs and not allowed to become crowded; watered well and fertilized during blooming season it will send up many clusters of beautiful blue flowers and last for many years. Large root division: 35c each, 3 for \$1.00, \$4.00 per dozen. Postpaid.

RANUNCULUS

RANUNCULUS BULBS

CALIFORNIA RANUNCULUS

We find an ever increasing demand for our wonderful strains of these most lovely spring flowers, and each succeeding year supply many thousands of the finest bulbs grown.

Ranunculus are taller growing than Anemones, and the flowers are more double (some are semi-double and still others are single) and the colors cover a wide range of reds, rose, orange, yellow with many intermediate shades. A splendid cut flower.

Ranunculus should not be planted more than 4 or 5 inches apart, as they succeed best in mass plantings. They require a sunny location, good drainage, and very little fertilizer. After planting, a good mulch of ground peat moss is very beneficial.

Fraser's California Strain. A carefully selected strain containing only flowers of the finest type and colors.

Fine large bulbs, 35c per doz.; \$2.50 per 100; \$20.00 per 1000.

Mammoth bulbs, 75c per doz.; \$5.00 per 100; \$45.00 per 1000.

Fraser's Art Shades. This is a highly selected strain with unusual flowers in the most brilliant colorings imaginable containing a large percentage of red shades, bright yellow and orange.

Select bulbs, 85c per doz.; \$6.00 per 100, \$50.00 per 1000.

Tecolote Double Giants. A strain selected for large sized and extremely double flowers. Jumbo bulbs, \$1.00 per doz.; \$6.00 per 100.

NOTE: Anemone and Ranunculus bulbs should be soaked in water several hours before planting. Plant the Ranunculus with the prongs down.

\$2.00

Ranunculus—Anemone—Freesias Fragrant Freesias

Delivery August 1st

California grown Fressia bulbs are recognized as the best by leading florists. Long stems can be developed by planting in semi-shady situations or under cheese cloth. Plantings made in the full sun seldom produce as long stems as those in the semi-shade or filtered sunlight. In climates where the winters are severe, we do not recommend planting out of doors, but use only as a house plant for window boxes and pot culture, or green house growing. In Southern States with mild climate, such as we have here in California, they naturalize very quickly. When planting in pots, be sure and plant in colonies of four or five so that you will have a good showing.

Golden Daffodil. Light to deep golden yellow, delicately shaded with orchid on the outside of the petals. Stems are good length and substance, carrying five to seven flowers.

Mendota. Shorter flower than the daffodil, narrower tube and the color is a deeper golden yellow, delicately tinted on the outside of the petals with lavender.

Maria Louise Fischer. This is one of the late introductions. Large wide flower of soft lavender-blue tinged with white and a touch of gold in the throat. Has a very delicate perfume.

Wistaria. A real beauty, violet-blue with the throat softened by creamy-white. This is a new variety, a profuse bloomer bearing large flowers in profusion. A sweet fragrance delicate as the violet.

Any of above

Large No. 1 Bulbs: 12 for 40c; 50 for \$1.75; 100 for \$3.00.

Purity Superflora. The best of the white forcing varieties. Early bloomer, large, wide open flowers of pure white borne on long strong stems.

Large, No. 1 Bulbs: 12 for 50c; 50 for \$2.00; 100 for \$3.50.

Marc Peters. Flowers are short with narrow tubes opening full and wide. Deep rose color with the tip of the petals tinged with touch of gold, a real gorgeous flower you will like. 12 for 30c; 50 for \$2.00; 100 for \$3.50.

Fraser's Rainbow Mixture. A select mixture of the best strains, in a variety of delightful colors. Best, large bulbs, 12 for 35c; 50 for \$1.25; 100 for \$2.50.

A FREESIA GARDEN COLLECTION B 36

6 Dozen Bulbs

One dozen each of Purity, Golden Daffodil, Mendota, Marc Peters, Marie Louise Fischer and Wistaria. A real value of \$2.40. Postpaid.....**\$1.50**

Each variety is separately labeled.

Red Riding Hoods FREESIA

(Tritonia Crocata)

Beautiful low growing bulbous plants from the Cape of Good Hope. Flowers a bright orange scarlet. Easily grown in any garden soil. Plant them three inches apart and two inches deep. Bulbs, 12 for 35c; 36 for \$1.00; 100 for \$2.50.

FRASER'S RANUNCULUS HAVE NO EQUAL

CALIFORNIA ANEMONES

These brightly colored flowers resemble large poppies. They are very beautiful and wonderfully effective and come in a great variety of dazzling colors such as rose, red, blue, purple, lavender and other attractive shades, with black stamens in the center.

FREESIA—Purity Superflora. Pure White.

Our improved strains contain only the most select types and colors, and have long stiff stems, making them ideal for cutting.

Anemones thrive best and are most showy when the bulbs are planted close together, about 3 to 4 inches apart. They should either be planted in beds, or in groups, to give a massed effect.

Fraser's California French Anemones. An extra selected strain with huge blossoms in rich clear colors, on long rigid stems.

Fine large bulbs, 35c per doz.; \$2.50 per 100; \$20.00 per 1000.

Jumbo Extra Sized Bulbs: \$1.00 per doz., \$6.00 per 100; \$45.00 per 1000.

St. Brigid "Creagh Castle." Large semi-double flowers of the most brilliant hues and delicate shades of colors, including a good proportion of rose, pinks, lavenders and blues.

Select bulbs, 45c per doz.; \$3.25 per 100; \$27.50 per 1000.

His Excellency. A striking cut-flower variety with large bright poppy-scarlet flowers, with jet black centers, on very tall stems. Wonderfully showy.

Select bulbs, 60c per doz.; \$4.00 per 100; \$35.00 per 1000.

Blue Poppy. A most attractive strain running all shades of beautiful blue. Very large flowers.

Select bulbs, 60c per doz.; \$4.00 per 100; \$35.00 per 1000.

FRASER'S CALIFORNIA FRENCH ANEMONE.

TULIPS and HYACINTH BULBS

Our listing of Tulips and Hyacinth represents the most popular and satisfactory varieties for the average gardener. Plant from October to November in well-drained garden soil, set the bulbs at least four to six inches apart and four to five inches deep. We procure our supply of Tulips and Hyacinth bulbs direct from one of the oldest and most reliable Holland growers. They are all top size bulbs and usually arrive the latter part of September so we can make delivery to you by October 1st.

Darwin Tulips

Afterglow. A rich, deep orange with rose flush shading to salmon-yellow at edges of petals; inside a glowing orange. 3 for 25c; 90c per doz.; \$6.50 per 100.

Baronne de la Tonnaye. Blush rose-pink and glowing salmon in center. An excellent bedding variety. 3 for 25c; 90c per Doz.; \$6.50 per 100.

Clara Butt. One of the favorites for clear pink effects. A good clear pink, deepening to center. 3 for 25c; 90c per doz.; \$6.50 per 100.

Farncombe Sanders. One of the best red Darwin Tulips. A beautiful rosy-scarlet with white base. 3 for 25c; 90c per doz.; \$6.50 per 100.

Madame Krelage. Lilac-rose, margined with pale, silvery-pink, inside rose-pink. 3 for 25c; 90c per doz.; \$6.50 per 100.

Pride of Haarlem. A bright crimson-red, fine for massing among shrubs or in borders. 3 for 25c; 90c per doz.; \$6.50 per 100.

William Pitt. Dark crimson with purplish bloom to outside of petals. 3 for 25c; 90c per doz.; \$6.50 per 100.

Centenaire. Large flowers of violet-rose, fine for house or garden. 3 for 25c; 90c per doz.; \$6.50 per 100.

Mixed Darwin. 75c per doz.; \$5.00 per 100.

Cottage or May Flowering Tulips

Gesneriana Major. A bright scarlet with blue-black center; very striking. 3 for 30c; \$1.00 per doz.; \$7.50 per 100.

Orange King. A deep rich orange flushed with rose and orange-scarlet inside. Sweetly scented and unsurpassed for colorful borders and beds. 3 for 30c; \$1.00 per doz.; \$7.50 per 100.

Mrs. Moon. Deep golden color of Daffodil yellow. 3 for 30c; \$1.00 per doz.; \$7.50 per 100.

Breeder Tulips

Bronze Queen. A beautiful, buff-tinted golden bronze and golden bronze with yellow base inside. 3 for 30c; \$1.00 per doz.; \$7.50 per 100.

Cardinal Manning. Claret red edged with a rosy bronze. A large, deep-cupped flower. 3 for 30c; \$1.00 per doz.; 7.50 per 100.

Prince of Orange. Glowing bronzy orange with metallic sheen. A striking color. 3 for 30c; \$1.00 per doz.; \$7.50 per 100.

HYACINTHS

Delivery by October 1st

This popular flower is too well-known to need description. Our bulbs are good blooming size imported from the best Holland grower.

Queen of the Pinks. Rose-pink.

La Victoire. Brilliant scarlet.

Bismarck. Sky blue.

King of the Blues. Dark blue.

L'Innocence. White.

3 for 40c; 6 for 75c; 12 for \$1.50

HEMEROCALLIS

Golden Day Lily
Delivery September 1st

Perennials with grass-like leaves producing lily-like flowers of yellow and bronzy-orange in single and double form. April to July.

Kwanso Flore-pleno. The double variety of bronzy-orange. Blooms later and longer than the singles.

Flava (Yellow Day Lily). Single variety of deep lemon yellow blooming in June and July.

Fulva (Tawny Day Lily). Single variety of bronzy-orange with darker markings. Blooms June to July.

Root divisions, 25c each; 3 for 50c; 6 for 95c.

ANGELS' CANDLE STICK LILY
(Ornithogalum)

SEE SPECIAL OFFER ON BACK ORDERBLANK. IT WILL SAVE YOU MONEY.

TIGRIDIA

Mexican Shell Flower or Tiger Flower
Delivery after November 1st

Tigrida Pavonia Hybrids. Native of Mexico succeeding where gladiolus thrive, flowering from July to August. Coloring is rosy-red to orange-yellow, beautifully spotted. The flowers are fugitive but furnish a continuous succession of bloom throughout the season. An exceptionally fine potted plant.

Bulbs should be planted 2 to 3 inches deep and 4 to 8 inches apart. 20c each; 6 for 85c; 12 for \$1.60; 25 for \$3.20.

No. 2957—Pkt. Seed. 15c.

TIGRIDIA PAVONIA. Indescribably beautiful, very attractive for garden display or pot plants.

Gladiolus—Flowered

WATSONIAS

Delivery August 1st

A beautiful flower from South Africa, and one which thrives as well in the garden as gladiolus. Plants grow three to five feet high and produce great spikes of large flowers especially valuable for cutting, lasting a long time in water. As the Watsonia is similar to gladiolus they require the same cultural methods. Blooming season is from March to September, depending on the time of planting and location.

New Hybrids Mixed. The finest of new shades of pink, lavender, cerise-rose and white. 12 for 75c; 100 for \$5.00

No. 2966—Pkt. 15c.

TRITOMA

Flaming Red Hot Poker

Pfützeri. Bears bright orange-scarlet flower spikes 2 to 3 ft. tall. Makes a very spectacular garden display and very effective for cut flowers. Vigorous field grown plants. 25c each; 3 for 60c; 6 for \$1.00.

No. 2493—Pkt. Seed 15c.

ORNITHOGALUM

Angels' Candlestick Lily

Thyrsoides. The Chinchinchee of South Africa. Delivery—September. Beautiful satiny white flowers with brown eye. Extra fine, 4 for 50c; \$1.00 per doz.; \$7.50 per 100.

No. 2952—Pkt. Seed 15c.

Arabicum. Star of Bethlehem. Delivery—September. Fragrant white flowers with glistening black central boss and yellow anthers. Many flowers on stem. **Blooming Size,** 3 for 25c; 75c per doz.; \$6.00 per 100.

Depth and distance apart to plant "Sun-Ripened" Bulbs.

OUR GUARANTEE

We send out only vigorous, well-matured Sun-Ripened Seeds, Sun-Cured Bulbs, and Sun Tested Plants and we guarantee the vitality, purity, and quality of all seed, bulbs, and plants ordered from this catalog. We will refund, not to exceed the purchase price on any of our specialties that do not show a fair germination within thirty days or less of planting, provided, however, that we are notified of such failure within a reasonable time.

Weather conditions, soil, and cultivation have a large bearing on the successful growing of plants and must be taken into consideration. It is therefore agreed that Fraser & Son, Ltd., shall in no case be liable for more than the actual amount paid for seeds, bulbs or plants.
